NOVALOK: MANUFACTURING & API PLANT

The JV Company was incorporated in September 2014, to acquire a Pharmaceutical Manufacturing under FDI of PPV. The Belarussian-Indian joint venture NOVALOK LLC (ООО НоваЛок) was established by RUP Belmedpreparaty (24%) and the Indian company Lok-Beta

Pharmaceuticals (I) Pvt Ltd. (76%) in current time.

NOVALOK LLC is having OSD (Oral Solid Dose) formulation manufacturing plant located at Skidel, Grodno district, Belarus.

Infrastructure: OSD Manufacturing Plant and upcoming API plant. Build-up area more than 3100 Square Meter (Store, QC, Packing, Change rooms, Utility), 2 floors structure made of R.C.C. followed by EAEU GMP guideline for Oral dose formulation and API built up area will be more than 2700 Square Meter, OSD plant will be operational for commercialisation by End of 2025.

Locality – Well Developed Industrial area, which enable Operational work efficiency (sourcing of materials, change parts etc) and Ease of obtaining various services and experts etc.

Oral dosage Facility: The oral dosage facility (Tablet, Capsule, API) will be operational in the last quarter of FY 2025. The state-of-art factory is situated approx. 40 km from Poland border and 25 KM from Grodno City.

Market: Belarus, Eurasian market, CIS countries and Rest of the world.

Utility: Steam boiler, Air Compressor, RO plant, HVAC system, Dehumidifier linked to HVAC system, ETP System

Manpower: Talented and technical human resource, proximity to Technical Institution, employee friendly policies

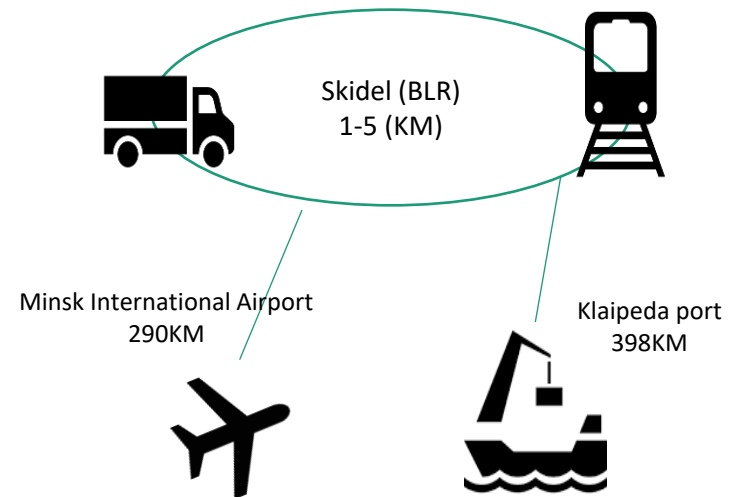

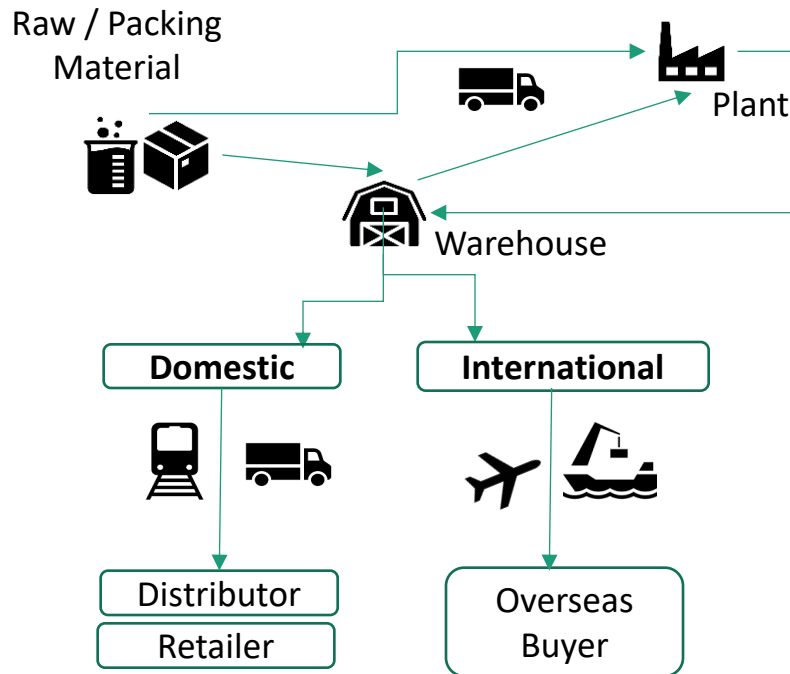

Logistic -
Well connected to all 3 mode of transportation: National highway & Railway within 5 KM, Minsk International Airport and International port trust

Stores: follow GDP norms

NOVALOK LLC believe in simplicity and it reflect in Logistics and distribution area which cater transportation, warehousing and packaging of products manufactured at its own plant. Proximity to all 3 modes of transportation enable quick and safe distribution.

NOVALOK: SALES & MARKETING

Sales & Marketing Strategically NOVALOK's key strength and invest significant area based on 3 point agenda

1. Offer opportunities to our associates to run a small to medium sized profitable entrepreneurship by offering them technical know-how with the empowerment and accountability within the core values and system of the company. Will provide opportunity to replace imported drugs for benefit of citizen of Belarus under the Guidance of Ministry of Health.
2. Aiming to enable service towards broader segment of the pharmaceuticals & healthcare markets.
3. Marketing strategy - NOVALOK chooses to market its products which matches its rigorous marketing, stringent quality norms and financial return criteria.

Methodology: JV with Govt. of Belarus and LOK-BETA Pharmaceuticals (I) Pvt. Ltd. enable opportunity for extensive database and obtains regular feedback on customer purchasing patterns and preferences and doctor prescribing habits. These detailed information's are used to direct the company's promotional spend, sales force activity, product development programmes and to identify new product opportunities.

International Market: Having office at Moscow, Russia and in Minsk-Belarus, NOVALOK is able to expend its marketing operations in CIS countries, EAEU markets, Asia Pacific, Latin America and Africa Market.

Domestic Market: OSD Manufacturing plant at Belarus soil, JV with Government of Belarus and expertise of LOK-BETA Pharmaceuticals (I) Pvt. Ltd give 360-degree opportunity to serve domestic market need with niche segment along with live saving drug.

NOVALOK will have long list of quality products inline with international standard in coming days. Target segments are ARV, Anti-Diabetic, Antibiotics, Immunosuppressants, Anti-Hypertensive, Gastroenterology, Anti -TB, Anti – Inflammatory .

NOVALOK has advantage of inheritance the formulation and technology from its parent company LOK-BETA, which has

- EAEU GMP/WHO-GMP/cGMP/ISO certified operation plant in India
- 70+ branded Products formulation and technology from State of art R&D centre (CSIR certificated Government of India).
- API – Skidell Based up coming API Plant will be handy for faster and budget row material supply, which will benefit NOVALOK to produce quality product with low price compare to market competitor.
- Intellectual Property: In term of manpower and expertise, LOK-BETA technical expertise will be handy and will ensure uninterrupted quality production and growth of NOVALOK.
