ABOUT US

Lok Beta is an export centric pharmaceutical manufacturer based in Mumbai, India. We are global leader committed to improving and saving lives via innovative healthcare solutions. We have acquired a global reputation for excellence through a continuous dedication to research, quality, and worldwide accessibility. Lok-Beta Pharmaceuticals is an integrated, research based, international pharmaceutical company, producing a wide range of quality, affordable generic medicines, trusted by healthcare professionals and patients across geographies. The Company has a global footprint in over 20 countries. We are actively engaged in manufacturing formulations based on advance molecules. Our R&D efforts are to serve with efficacy by providing new & advanced molecules in the form of pharmaceutical products. Our highly sophisticated manufacturing plant in is spread over a 50,000 sq. ft. It is home to cutting-edge product innovation and formulation development processes that cater to stringent regulatory compliances. We have also set up Representative Offices in Russia & Belarus.

- **Vision:** To be the driving force behind a worldwide health revolution, where our products empower individuals and communities to thrive.
- **Mission:** Develop and create specialty formulations to deliver high-quality products to care for the well-being of people worldwide while conforming to internationally recognize regulatory requirements.
- **Values:** Caring Human Health, Trustworthy on Quality, Quality Oriented and Customer Oriented

FEATURES

- All of our products undergo extensive R&D and stringent quality control tests as per international norms.
- We use sophisticated and latest instruments including U.V. spectrophotometer for qualitative as well as quantitative analysis.
- Testing is performed by highly qualified, well-trained and experienced analytical chemists for achieving the best in quality control.

OUR FOCUS PRODUCT CATEGORY

Our primary focus areas lie in the prescription drugs that have wide-ranging applications across fields like Anti HIV, Anti TB, Immunosuppressant, Anti diabetic, Antibiotics, Cardiovascular, Pain Management, Gynecology, Gastroenterology among others.

OUR FOCUS MARKETS

- We have a special focus towards exports markets of the CIS Countries viz., Russia, Belarus, Ukraine, Kazakhstan, and South East Asian Countries like Sri Lanka, Thailand, Vietnam, Philippines, and Myanmar. Through ongoing research and product development, we have been able to grow from strength-to-strength in these markets and are taking giant strides each day!
- Having established our presence in these markets, we are now expanding our focus towards emerging markets like Ghana, Ethiopia, Kenya, Nigeria, Turkmenistan, Uzbekistan, Armenia, Tajikistan, Panama and Chile where we have over 75+ approved products and 75+ products pending approvals.

Our Group of Companies:

Our group of companies are specialized in delivering high quality pharmaceuticals and also market them globally. All of our group companies are in compliance to international pharmaceutical standards to cater to different pharmaceutical requirements.

Lok-Beta Pharmaceuticals (Mumbai, India): It is a registered Marketing pharmaceutical company to reach internationally to end users and market products according to the specific requirements and compliance with the regulatory body of different countries.

J. Duncan Healthcare Pvt. Ltd: It is a pharmaceutical manufacturing facility established in Thane, India to manufacture internationally accepted pharmaceutical products. The manufacturing unit commenced its activities with three dosage forms viz. Tablet, Capsule & Oral Liquid using ultra-modern machineries & state - of - art modern building designs. The facility has been developed under the guidelines of WHO-GMP norms. The facility has been built in line with latest international regulatory requirements.

Lok-Beta Pharmaceuticals (Goa, India): It is our newest production facility established in Goa, India to cater to increasing requirements of Oncology products. The plant is also capable of producing API of Oncology segment in compliance with international standards. The plant is undergoing final inspections and trial runs and shall be operational in next couple of months.

Novalok LLC (Skidel, Belarus): With expansion in international market and CIS region specifically , the Lok-Beta group strategically setup a plant in Skidel, Belarus. With approx. area of 5000 sq.mt the plant is specialized to produce API and finished formulations which include Tablet and Capsules following the GDP norms.

List of products with CTD Dossier

Product	Category	Box Pack
